

brooklyn blend

A mix of Brazilian Santos, Ethiopian Mocha and Indonesian Java coffee bean, the Brooklyn blend is perfect for a strong, smooth coffee experience.

The larger, high quality Brazilian Santos bean adds a smooth nutty chocolate taste to your coffee, while the Indonesian Java bean adds a rich cinnamon flavour to your coffee.

Brazil are well known for their specialty coffee beans, and the Brazilian Santos bean is definitely one of them. Unlike other coffee beans, these are dried out whilst still in the cherry, meaning they are in contact with the sweet fruit as they dry, producing a coffee heavy in body and smooth in flavour.

Perfect with a black Americano and a shot of cinnamon syrup.
